	14-00	EBFM followed by Hake
Wednesday 2:	9-00	Sardine
	14-00	EBFM
Thursday 3:	9-00	To be advised on Wednesday given progress on the various items
	14-00	Reserved for report preparation by Panel
Friday 4:	9-30	Possible final discussions
	13-00	Review of Panel Recommendations
	14-30	Review Panel layperson summary/questions (**Maths Room M304)**

DOCUMENTATION AND ATTENDANCE

Documents for background (BG) and for discussion (P) at the event have already been and for the next few days will continue to be posted on the workshop website: https://science.uct.ac.za/maram/2026-workshop. Attendees should download beforehand, as hard copies will NOT be provided at the event.

Could those (thanks to those who have already) **wishing to attend part or all of the event please send an email to Anthea Stain (anthea.stain@uct.ac.za)** indicating the topics for which they wish to attend (this is not necessary for attendance at the final Friday lay summary session). Note that, for various reasons (e.g., copyright), some documents cannot be placed on the workshop website; these will be emailed to (only) those advising their intent to attend for the topic concerned. Kindly provide such information to Anthea **no later than 6 pm on Wed 25 Nov.**

It is probable that virtual (by Teams) attendance may be possible for all events including the final layperson summary. More details in that regard will be circulated soon (likely on Thur 26 Nov) if such arrangements prove to be successful.

Note that, excepting as regards the possibility of virtual attendance, no further general circulars about the event will be widely distributed in this manner. **Further information, as appropriate, will be emailed ONLY to those who have advised of their intent to participate.**

Those who wish to attend only the layperson summary session at 14-30 on the afternoon of Friday 4 December need not email Anthea Stain to so advise, unless they wish also to be included in further circulation.
