

2019 South African Institute for Aquatic Biodiversity SUMMER SCHOOL

For undergraduate & postgraduate students

Applications close | 01 November 2019

WHAT YOU CAN EXPECT

- Experience working in an estuary and the marine environment
- Acoustic telemetry (deployment, recovery and downloading)
- Baited remote underwater stereo-video (stereo-BRUV) deployment and recovery
 - Introduction to genetic extraction and PCR
 - Data analysis associated with all methods

WHAT WE NEED FROM YOU

- A short paragraph (200 words **MAXIMUM**) motivating why you would like to attend and any experience you might have had in the field, as well as a *copy of your ID*
- Remember to include all your contact details (email address and phone/mobile number) and which university you are registered with
