

BIOGRIP/CAF/SUN

Isotope Geochemistry and Instrumental Applications workshop: 2-day course

Date: 1 – 3 December 2025

Venue: Earth Science Department, Stellenbosch University

Presenters:

Prof Cris Lana (Earth Science, Stellenbosch University)
Prof Chris Harris (Geological Sciences, University of Cape Town)
Prof Susanne Fietz (Earth Science, Stellenbosch University)
Dr Ariela Mazoz (Earth Science, Stellenbosch University)
Riana Rossouw (Central Analytical Facility, Stellenbosch University)

TOPICS TO BE COVERED:

Theoretical Foundations

- Introduction to Isotope Geochemistry
- Radiogenic Isotope Systems

Stable Isotopes, Trace Elements & Applications

- Analytical Techniques – Theory
- U-Pb Carbonate and Accessory Mineral Dating
- Isotopes in Earth Systems
- Trace Element Analyses and Quantification
- Invited Speakers

Full course Rate (Ex VAT):

Full time registered student rate: R3000.

Stellenbosch University student rate: R2000.

Fees cover coffee/tea and refreshments (morning and afternoon). Meals and accommodation are not included.

Registration information:

[Click here to register for the workshop](#)

Closing dates for applications: 18th of September 2025

Successful applicants will be notified by the 17th of October 2025.

Please contact Riana Rossouw (rrossouw@sun.ac.za) or Janine Colling (jcolling@sun.ac.za) for additional information.
