Software Trainer with OLSPS Analytics

We are looking for a trainer to provide training in IBM SPSS Statistics software and related topics.

Duties and responsibilities include, but are not limited to:

1. Delivering statistical training to clients.
2. Developing and maintaining training course material in accordance with the OLSPS training courses.
3. Marketing and selling of training courses.
4. Identifying cross- and up-sell opportunities within the software sales department.
5. Develop knowledge of all software products on which OLSPS sells training.
6. Technical and statistical support to clients who use SPSS.
7. Managing all administration and logistics for training.

Software products: mainly IBM SPSS Statistics, possibly also IBM SPSS Text Analytics for Surveys, IBM SPSS Amos and IBM SPSS Modeler.

Typical clients: new and experienced SPSS users; potential clients considering options for procuring statistical software. Staff of government departments and the commercial sector; staff and students of academic institutions.

Minimum requirements:

Tertiary qualification, preferably BSc or BCom with a major in statistics.

Skills required
- Strong statistical knowledge
- Business knowledge
- Keen to teach

Skills advantageous
- Experience in sales and marketing
