

Post-doctoral research in Marine Spatial Planning and Sustainable Development

**Institute for Coastal and Marine Research (CMR)
Nelson Mandela University, Port Elizabeth**

Two post-doctoral grants are available in 2021-2022 for research in South Africa, Algoa Bay, South Atlantic Ocean and Indian Ocean. South African candidates with excellent academic records, advanced quantitative and qualitative research skills, excellent publication record, proficient in GIS and a PhD in any of the following fields are invited to send an expression of interest: spatial planning, ecological/resource economics, social - cultural assessments and mapping. Suitable candidates from other African countries are also welcome to apply.

Academic base:

Ocean Sciences Campus, Nelson Mandela University, Port Elizabeth

Please email expressions of interest to:

Dr Bernadette Snow, Department of Development Studies and Institute for Coastal and Marine Research

Bernadette.snow@mandela.ac.za

Please provide an abbreviated CV, 200-word motivation regarding your interest in Marine Spatial Planning and Integrated Sustainable Ocean Management, and the names and email addresses of two academic references.

Closing date 6th of January 2021

Shortlisted candidates will receive a response by 30th January 2021
