

On Tuesday the 4th of May at 16h00 (GMT+2) we will host a panel on:

Chair: Dr Ashley Naidoo
Chief Director: Ocean & Coasts Research
Department of Forestry, Fisheries & the Environment

Convener: Dr Neville Sweijd
Director, ACCESS

Ocean Acidification – everything you need to know!

Dr Richard Feely
Pacific Marine Environmental Laboratory
National Oceanic & Atmospheric Administration
USA

Dr Anne Cohen
Tenured Scientist
Woods Hole Oceanographic Institution
Massachusetts, USA

What (and where) is OA exactly?

What are the drivers?

How fast is ocean pH changing?

Are potential impacts negligible or catastrophic?

What are the impacts on ecosystems, fisheries and the carbon (dioxide) cycle?

What is being done and what can we do about it?

Dr Warren Joubert
Lead Scientist: Global Atmosphere Watch
South African Weather Service
South Africa

Prof Sam Dupont
Dept. of Biological & Environmental Sciences
University of Gothenburg
Sweden

science & innovation
